### **Saint Luke**

Luke, the author of the third gospel account (and the Acts of the Apostles), is symbolized by a winged ox or bull – a figure of sacrifice, service and strength. ... The ox signifies that Christians should be prepared to sacrifice themselves to follow Christ. The "Hail Mary" prayer is recorded in the Gospel of Luke. The prayer incorporates two greetings to Mary : "Hail, full of grace, the Lord is with thee." and "Blessed art thou amongst women and blessed is the fruit of thy womb.". Luke is the longest of the four gospels and the longest book in the New Testament; together with Acts of the Apostles it makes up a two-volume work from the same author, called Luke–Acts. St Luke's Feast Day is the 18th October.

### **Saint John Paul II**

Born Karol Józef Wojtyła on May 18, 1920, in Wadowice, Poland,. In 1978, John Paul made history by becoming the first non-Italian pope in more than four hundred years. As the leader of the Catholic Church, he travelled the world, visiting more than 100 countries to spread his message of faith and peace. In 1981, an assassin shot John Paul twice in St. Peter's Square in Vatican City. Fortunately, he was able to recover from his injuries and later forgave his attacker. John Paul often spoke out about suffering in the world. A charismatic figure, John Paul used his influence to bring about political change and is credited with the fall of communism in his native Poland. Pope John Paul II died on April 2, 2005, at the age of 84, at his Vatican City residence. More than 3 million people waited in line to say good-bye to their beloved religious leader at St. Peter's Basilica before his funeral on April 8. On July 5, 2013, waving the usual five-year waiting period, the Vatican announced that the Roman Catholic Church would declare Pope John Paul II a saint. The announcement of Pope John Paul II's canonization came after the Vatican revealed that two miracles were attributed to the late pope. After a dying French nun, Sister Marie Simon-Pierre Normand, prayed to Pope John Paul II during her battle with Parkinson's disease—the same illness that killed the pope—she was cured. The second miracle involved a 50-year-old woman, who claimed that she was cured of a brain aneurysm after a photograph of Pope John Paul II spoke to her. His feast day is 22nd Oct.
